BULLETIN PARTY RETURNS

(Continued from Page 1)
of my life," said Miss Akamu when she stepped off the steamer. "The beautiful scenery and the receptions given us were simply grand. You may be sure I have nothing but words of praise for the Bulletin."

The every-day and smiling Angie Pangelinan was the picture of happiness and good health. She said that the Bulletin party was most royally entertained wherever they went. She is of course glad to get back to Honolulu though it did look rather small after the sights of the big city.

Mrs. Moore, who was joined by her husband on the last previous trip of the Wilhelmnia, said she had had a splendid time and enjoyed every moment of the tour.

Mrs. Beggs, the official head of the party, also joined in the pleasant words of the home-coming. "We have had a good time and we are all very grateful to the Bulletin, and to the many people along the way who greeted us so cordially. Manager Lahrm of the Hotel Manx was especially kind to the party. Really, there is nothing too good for Honolulu people at his hotel."

Mrs. Beggs left for her home at Puunene on the Mauna Loa at noon. Miss Akamu will leave for Hilo on the Wilhelmnia in order to reach home in time for the opening of the school term.

BROUGHT BACK A BIG STOCK

Geo. B. Curtis, manager of Jordan & Co., returned this morning by the Wilhelmnia from San Francisco, where he went a few weeks ago to purchase a stock of dry goods. He secured a fine stock of goods that a big San Francisco firm had ordered but failed to receive on account of not being able to make payments required. The wholesalers notified Mr. Curtis by cable that this stock of goods was in San Francisco and that it could be bought at a very low figure. He left the same week for San Francisco and purchased the goods for fifty-eight cents on the dollar, which required an outlay of twenty-five thousand dollars.

The purchase of this large stock was announced here a few days ago by cable. The entire stock was brought here by the Wilhelmnia and drymen are busy today getting this large quantity of dry goods into the Jordan store and warehouses. An immense sale to dispose of this stock will be advertised in a few days.

A DISTRESSING CONDITION CURED**How This Los Angeles Woman Was Helped by the Tonic Treatment.**

She Used Dr. Williams' Pink Pills When She Needed More Strength and the Pure, Rich Blood Soon Brought Complete Relief.

"I can't begin to tell of the benefit I received from Dr. Williams' Pink Pills," says Mrs. A. K. Hay, of No. 678 East Forty-fifth street, Los Angeles, Cal. "Four or five years ago at the time of life when I needed rest, I became run down through overwork, and worry caring for my husband who had been injured. I became so weak and debilitated that I didn't have strength to do my work. I had no ambition to do anything. Food didn't seem to strengthen me. I had distressing pains in the back of the neck and along the spine. I suffered from headaches, with very nervous, couldn't sleep at all, and the least little noise startled me. I was confined to bed for three weeks at a time. I was reduced in weight from 134 to 115 pounds."

"I was under the care of three doctors at different times during my sickness. While taking their medicine I seemed to feel some better but would be as sick as ever when I stopped taking it. The doctors said I would never get well without an operation, but my husband would not consent to it. I had been sick over a year when a friend urged me to try Dr. Williams' Pink Pills. I had tried so many medicines and doctors that I didn't have much faith in the pills but decided to give them a trial. It was only a short time before I began to feel stronger. The headaches and nervousness left me and I was benefited in every way. I gave the pills a good trial and was entirely cured. I feel more now than I have in a long time."

If you are interested in the remedy that cured Mrs. Hay, write today for our booklet, "Plain Talk to Women." It is free and will be sent postpaid.

Dr. Williams' Pink Pills are always the same and are sold only in packages bearing the well-known trade mark, Dr. Williams' Pink Pills for Pale People. Pills sold in any other package, or loose, by the dozen or hundred are not the same, whatever the clerk tells you. The genuine are sold by all druggists or will be sent by mail, postpaid, on receipt of price, 50 cents per box; six boxes for \$2.50, by the Dr. Williams Medicine Co., Schenectady, N. Y.

DISMISSAL OF CHARGE

(Continued from Page 1.)
Richards ran into and killed Lul Kekai Paole on March 31 and for this was indicted by the Grand Jury on May 25, the charge being manslaughter in the first degree.

County Attorney Cathcart refused to prosecute Richards after hearing the testimony in the case and viewing the scene of the accident.

There was considerable criticism of this action at the time, and, in spite of Cathcart's stand, the Grand Jury returned an indictment and turned the prosecution of the case over to the attorney general's department.

The case was set for trial last week at the time the criminal calendar for the term was read and this morning at eight-thirty was called before Judge Cooper.

The Territory was represented by Attorney General Lindsay and the defense by W. S. Edings and C. C. Bitting.

When the case was called in court the prosecution addressed the bench saying that after a thorough examination of the evidence submitted and a careful inspection of the place where the accident occurred he was of the opinion that the accident was unavoidable. It was his opinion that the defendant should not be held to answer under the indictment and he declined to prosecute asking that a not pros be entered.

The decree was entered as requested by the prosecution and the prisoner discharged.

MORE DETAILS OF AEROPLANE BARRY REPORT DROPS TO BAY

(Continued from Page 1)
The Department of California under the command of a brigadier-general, and that the forces in the islands be materially increased.

General Barry points out that the Territory of Hawaii is too far away from San Francisco to be administered as at present and also declares that the forces should be increased so that the entire complement of regiments shall be stationed in the islands. At present portions of the Fifth Cavalry and the Twentieth Infantry comprise the garrisons of the Hawaiian posts, the other portions of the regiments being either in the United States or in Manila.

The report recommends that Fort Shafter be expanded into a regimental post and that a regiment of infantry be stationed there and that Schofield Barracks be garrisoned by a regiment of cavalry instead of two squadrons as at present. The organization of the batteries at Fort Kamehameha into a separate battle command of four companies of Coast Artillery is recommended.

Another important item of the report is the recommendation that Atascadero ranch be purchased by the Government and turned into a permanent army post garrisoned by the mobile forces of the department, leaving the Coast Artillery to garrison the Presidio of San Francisco.

Regarding the target practice of the Coast Artillery the report says: "The results have been satisfactory. The practices of the Sixth-fifth and Thirty-eighth companies, Battery McKinnon, Captain J. B. Murphy commanding, and of the Sixth-fourth company, at Battery Mendell, Captain G. F. Connolly commanding, were excellent. The former companies firing at a range of 3679 yards with mortars, made nine hits out of ten shots (the shot that missed coming within 20 yards of the target), at a target moving at 5.3 miles an hour in 9 minutes and 53 seconds, or about one round per minute, the maximum rate of fire permitted by regulations. This establishes a record for mortar practice which has never been excelled."

craft off Craven Shoal buoy. Mars was shaken up by the fall, but was not badly hurt.

It was shortly before 7 o'clock when Mars, in his aeroplane, arose from the Sheepshead Bay track and headed for Manhattan beach. He rose to a height of about 2000 feet, and after circling around two or three times flew west toward Coney Island, where he planned to fly to Fort Hamilton. A sudden gust carried the aviator out over Gravesend bay, where Mars lost control, suddenly the machine appeared to collapse and fell into the water.

The Mississippi river at Burlington, Iowa, has touched the low-water mark established in 1864.
